## Tour Details

The Hampton Roads Bridge-Tunnel Expansion is the largest highway construction project in Virginia's history. This transformative undertaking, scheduled for completion in November 2025, will widen the current four-lane segments along nearly ten miles of the I-64 corridor in Norfolk and Hampton, with new twin tunnels across the harbor. The Virginia Department of Transportation (VDOT) is responsible for building, maintaining and operating the state's roads, bridges and tunnels. VDOT is the owner of the HRBT Expansion Project. The TBM launched from the South Island (Norfolk side) in April 2023, and tunnel at a rate of about 50 feet per day.
